Re: Request for Updated Surface Facilities Map, Jumbo Mining Company, Drum Mine,
M/027/007, Millard County, Utah

Dear Mr. Hartshorn:

As you may recall, during our June 6, 1996, site inspection of the Drum Mine, we requested an updated (and appropriately labeled) surface facilities map. We also asked if you would please provide a detailed itemized list of all the surface facilities/structures remaining at the mine site. To date, we have not received this information. This information will be used to calculate a more detailed and accurate reclamation surety estimate for this site. Would you please make sure that the itemized list includes specific details on the general size (actual dimensions) and construction materials (i.e. concrete, steel, wood framed, etc.) comprising the structures. If possible, we would appreciate receiving this information no later than July 31, 1996.

If you have any questions concerning this request, please call me or Tony Gallegos of my staff at your earliest convenience.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Reclamation Program
